What is the Virginia YMCA?

The Virginia YMCA focuses all its energies and funds on quality leadership development activities for teenagers throughout the Commonwealth—a unique responsibility amongst YMCAs in Virginia. The Virginia YMCA is a part of the YMCA family which helps mold the kind of people who care about others, who are firm in their own sense of worth, whose outlook is both community-wide and worldwide, and who give to others. By exposing young Virginians to the inner workings of state government with model government programs and by offering opportunities for community service through Hi-Y and Youth & Government clubs, the Virginia YMCA continues its commitment to the youth of Virginia.

What is the Model General Assembly?

The Model General Assembly program is designed to introduce high school students to the legislative process of the Commonwealth of Virginia. Youth senators and delegates have the opportunity to debate legislation in committees and on the floor of the Senate and House of Delegates. Other students serve as officers, reporters, lobbyists, and as members of our new underclassmen legislature.

Since its inception in 1948, over 50,000 students have attended this hands-on program at the Capitol in Richmond. Many former participants credit MGA with their interest in government and with their current professions.
